

Rehearsal Block Tracker (bonus mini-template)

Template. Fill in a fresh copy per rehearsal block. The blanks here are by design — unlike the governing documents, this is meant to be filled in by hand. **Studio:**

_____ **Block dates:** _____ to _____

- Recurring day/time: _____ Rate: \$ _____/hr Hours: _____
- Total expected cost: \$ _____ Cancellation policy: _____
- Notes (heels/chairs/filming rules): _____

The rest of this document is the information to capture for any booking, drawn from the **Venue Deal Sheet** and the **Rehearsal Block Tracker** above. It is deliberately platform-neutral: an earlier draft framed it as a WildApricot configuration, but WildApricot was never set up. Use it as a checklist — in Drive, in a doc, or wherever the event is being planned.

The **Approvals** section below is the part that is not optional: those fields exist to evidence the Co-Director approvals that Articles 11 and 19 require before CAN.dy is committed to anything.
