

CAN.dy Dance Project — Participation Acknowledgment, Assumption of Risk & Emergency Contact

This is now a specification, not a form to print. Participants acknowledge it in the membership system, where the checkbox carries the same legal effect as a signature (Article 20.1) and the record is append-only and timestamped (Article 20.3). Keep the wording here authoritative and current — the app links members to this file as the thing they are agreeing to — but do not fill in the blanks; they exist so the app knows which fields to collect.

Emergency contact details are held in the system, on the member record (`members.emergency_contact_name`, `_phone`, `_relationship`), visible to the member and to officers only. That was the last thing on this form that needed somewhere to live — Article 14 governs safety at rehearsals, and a phone number is more use on a phone at a studio than in a Drive folder. The `account_data_access_policy.md` limit on personal data already contemplates holding exactly this. Project Name: _____ Project Dates: _____
