

Recommended Google Drive folder convention

Create one top-level folder:

- **CAN.dy Admin**
 - **01 Projects & Events** (all bookings + projects)
 - **02 Finance** (statements, reports)
 - **03 Governance** (bylaws, policies, minutes)

For each WildApricot Event, create a matching Drive folder under **01 Projects & Events**:

Folder name format (best for sorting):

- YYYY-MM-DD - [VENUE] - [EVENT TYPE] - [PROJECT NAME] Examples:
- 2026-03-14 - Tabard Theatre - Performance - Sugar Rush
- 2026-02-05 - Dance Academy USA - Rehearsal Block - Sugar Rush
- 2026-04-10 - 7th Street Bar - Performance - Candy Cabaret

Inside each event folder, use consistent subfolders:

- 01 Contract & Insurance
- 02 Budget & Payments
- 03 Marketing & Media
- 04 Logistics
- 05 Reports & Closeout

File names (keep consistent):

- Contract - [Venue] - YYYY-MM-DD.pdf
- Invoice - [Venue] - YYYY-MM-DD.pdf
- Insurance COI - [Venue] - YYYY-MM-DD.pdf
- Recording Permission - [Venue] - YYYY-MM-DD.pdf
- Budget - [Project] - v1.xlsx
- Closeout Summary - [Project] - YYYY-MM-DD.docx

For **02 Finance**, keep monthly banking records from **Stanford Federal Credit Union** consistent:

- Bank Statement - Stanford Federal Credit Union - YYYY-MM.pdf
- Transaction Export - Stanford Federal Credit Union - YYYY-MM.csv

“Create a new Event” checklist (Project Coordinator can run)

- 1) Create WildApricot Event using the right template (Rehearsal Block / Performance / Video Shoot).
- 2) Create the matching Drive folder using the naming format above.
- 3) Put any contract/quote emails or PDFs into **01 Contract & Insurance**.
- 4) Paste Drive links into WildApricot fields:
 - Contract Link
 - Recording Permission Link (if applicable)
- 5) Fill in Money fields + deadlines; notify Treasurer.
- 6) Confirm approvals:
 - Co-Director Approval #1 + #2 = Yes before committing funds/signing.
- 7) After the event/project, upload receipts/summary into **05 Reports & Closeout** and mark “Secretary Saved Docs = Yes”.

CAN.dy Drive Access List & Permissions (1 page)

CAN.dy Dance Project — Drive Access List & Permissions

Effective: _____, 2026

Applies to: Google Drive used for CAN.dy records (“Team Drive/Shared Drive” or shared folders)

1) Folder structure (reference)

Top-level: **CAN.dy Admin**

- **01 Projects & Events**
- **02 Finance**
- **03 Governance**

2) Standard permission levels

- **Admin (Full control):** can add/remove users, change permissions.
- **Editor:** can create/edit/delete files in assigned folders.
- **Viewer:** read-only.

3) Role-based access (recommended default)

Co-Directors

- CAN.dy Admin: **Admin**
- 01 Projects & Events: **Editor**
- 02 Finance: **Viewer** (or Editor if you want them able to upload contracts/receipts)
- 03 Governance: **Editor**

Treasurer

- CAN.dy Admin: **Editor**
- 01 Projects & Events: **Viewer** (Editor allowed if Treasurer uploads receipts/contracts)
- 02 Finance: **Editor**
- 03 Governance: **Viewer** (Editor if Treasurer contributes to policies)

Secretary

- CAN.dy Admin: **Editor**
- 01 Projects & Events: **Editor**
- 02 Finance: **Viewer**
- 03 Governance: **Editor** (official recordkeeper)

Project Coordinator (per-project appointment)

- Only the relevant Project/Event folder(s) in 01 Projects & Events: **Editor**
- All other folders: **No access** (unless needed)

Social Media Manager (per-project appointment)

- Relevant Project/Event folder(s) → 03 **Marketing & Media** subfolder: **Editor**
- All other folders: **No access** (unless needed)

Outreach Lead (appointed role)

- Relevant Project/Event folder(s), outreach tracker(s), or outreach materials subfolder(s): **Editor or Viewer** (as needed)
- No access to 02 Finance and 03 Governance by default

Project Choreographer(s) (per project)

- Relevant Project/Event folder(s) (or a “Choreography & Rehearsal Notes” subfolder you create): **Editor or Viewer** (your choice)
- No access to 02 Finance and 03 Governance by default

4) Access list (fill in)

Maintain this table in a file named: “**Access List — CAN.dy Admin**”

Name	Role	Email	Access granted (folders)	Level	Date granted	Date removed
------	------	-------	--------------------------	-------	--------------	--------------

5) Handoff/offboarding checklist

When someone leaves a role:

1. Remove folder access within **7 days** (immediately if sensitive).
2. Transfer ownership of any files created under personal accounts (if applicable).
3. Rotate passwords / access tokens per the Accounts & Data Access Policy.
4. Secretary logs the removal date in the Access List.

6) Naming & storage rule

All contracts, invoices, and approvals should be stored in the Drive folder for the relevant Event using the naming convention: YYYY-MM-DD - [VENUE] - [EVENT TYPE] - [PROJECT NAME]

Great—then you’re in the best-case setup for a regular shared folder.

Do this (recommended)

- 1) Make **both Co-Directors** “Owners” of the folder as backups (Google allows multiple owners for regular folders).
- 2) Keep Treasurer/Secretary as **Editors** (not owners).
- 3) Put the file “**Access List — CAN.dy Admin**” at the top level and have the Secretary maintain it.

Update to the Drive Access Policy (wording)

In the “Standard permission levels” section, use:

- **Owner/Manager:** can add/remove users, change permissions.
- **Editor**
- **Viewer**
